Important:

- Work platforms may be operated only by personnel with UDT certificate for work platform operation. The fact is approved by the Ordering Party with the following signature.
- The signed out machine shall be: cleaned, its batteries charged, located in a place allowing for its loading onto a truck. Failure to comply with any of the above conditions will result in charging the Ordering Party with the cost of unnecessary transport as well as the cost of the machine being inoperable, in the amount resulting from a daily rental price.
- In the case of a fuel drive machine, the Ordering Party receives the platform filled up with fuel and is obliged to return it refueled. If the Ordering Party fails to fulfill the condition, they will be charged with the cost of refueling the machine.
- The Ordering Party will be charged with full costs of removal of all damage caused to the machine in the rental period, cleaning off excessive dirt, e.g. paint, plaster etc., or painting work platforms, which has been specified in the hand over protocole and on technical examination performed after the machine returning to **mateco**.
